# Messages from our leaders

**Muhammad Feroz Khan**  
President

"Its indeed a huge responsibility to drive the organization to the right direction. In developing the ability to see a better future, inspire others and implement innovative ideas requires a unique combination of awareness, knowledge, skill and experience. PYO did plan and execute various projects by applying these core competencies. Fresh change-makers got the opportunity to explore these foundational skills and benefited the highest number of deserving people through PYO's platform in 2020. It has been a self motivating experience where many souls are empowered and major milestones are achieved."

**Sabieh Ul Hasan**  
Senior Vice President

"PYO's commitment to achieve the Global Sustainable Development Goals (SDGs) by unleashing its potential is worth mentioning. During the 2020 pandemic, a significant shift in funding was observed from educational sector to the food support sector. Despite such challenges, where the poverty-stricken population faced the biggest crisis of survival, the passionate youth of Pakistan came forward as frontline philanthropists and helped them with utmost dedication and altruism. The journey is continued towards more smarter and well-organized campaigns with the support of our ever trusted donors and families."

"Fostering unity within a nation through interactive volunteering activities."

## TAUSEEF MEMORIAL SCHOOL

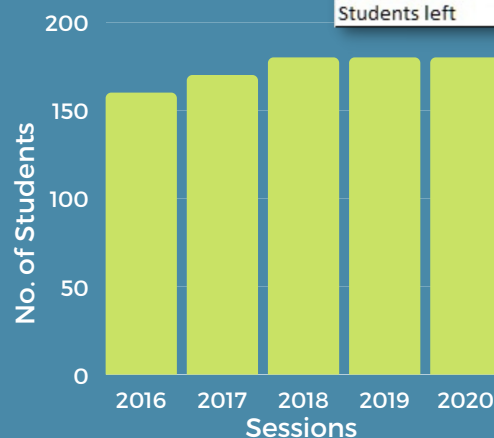

### Progress Summary

In the year 2020, TMS completed its 13th year with the spirit of imparting quality education to the deprived children. Maximum number of students remained 180 for the 3rd consecutive year, utilizing full capacity. Due to Corona virus pandemic, the academic activities got immensely affected. For the first time, TMS experienced low attendance and few drop-outs. However, to meet the targets, TMS management worked hard to arrange alternate day classes with SOPs, video lectures and assignment based learning as alternative modes to educate those who can't afford to have laptops, mobile phones or internet for Online Learning. Students were promoted in the Mid Term Exams on the basis of their assignments. Syllabus for the Final Term was reduced. Class VIII was reformed by the Principal to prepare them for Matriculation. Meanwhile, to bear the monthly expenses, the number of sponsored students was raised to 110 from 65 by actively campaigning for "Sponsor a child's education"..

"TMS Alumni Network" was made for all TMS graduates where we guide our ex-students regarding careers, keep their track record and help in any way possible. Need based scholarships are arranged for the deserving students and part-time work opportunities are also shared. A TMS own "web-based school management system" is under developing stage whereas 80% of the task is completed to computerize the daily lesson plans. New equipments in the computer lab are also installed

In summers, TMS students participated in a poster competition which was organized by the Voice News and won cash prizes.

A program for digital skills development was started by the name of APL (Accelerated Professional Learning) for senior students & Alumni to guide them for Freelancing. Majority of them are learning Graphic Designing and improving English Language.

### Next Goals:
